We have just two questions for you.

Embed Power Apps In Teams

The screenshot displays the Microsoft Teams interface. On the left sidebar, the 'Power Apps' icon is highlighted with a yellow box and a red circle containing the number '1'. The main area shows a channel named 'General' with a yellow box and a red circle containing the number '2' around the '+' icon in the top right corner of the channel header. The channel content shows three messages from 'Aroh Shukla' dated 2/10 12:04 PM, 2/10 12:14 PM, and 2/20 5:57 PM. Each message includes a text block 'Added a new tab at the top of this channel. Here's a link.' followed by a card representing an embedded Power App. The first card is titled 'ABCGroup' and features a globe icon. The second card is titled 'SharePoint JSON Form Formatting Events List & ...' and features a document icon. The third card is titled 'Issue reporting' and features a warning icon. A date separator 'February 20, 2021' is visible between the second and third messages. The bottom of the interface shows a 'Power Apps' tab.

Embed Power Apps In Teams

The screenshot displays the Microsoft Teams interface. On the left, the 'Teams' sidebar shows a list of teams. The 'General' channel of the 'Team Site with Data' team is selected and highlighted with an orange box. The main area shows the 'General' channel of the 'Team Site with Data' team. A Power App titled 'Awesome Food App' is embedded in the channel. The app displays a list of food items with their names, order times, and amounts. The 'From Teams' item is highlighted with an orange box. The app also includes a 'Test within SPO' section.

Embed Power Apps In Power BI

The image illustrates the process of embedding a Power BI dashboard into a Power App. The main canvas shows a large rectangular area with a blue border and corner handles, representing the app's layout. A smaller, orange-bordered rectangle is positioned in the center, containing a Power BI dashboard titled "Awesome Food Service Insights". This dashboard includes a KPI card showing "8" and "1745", a pie chart, a donut chart, and several bar and treemap charts. A yellow circle with the number "2" is placed to the left of the dashboard tile.

On the right side, a "Data" panel is open, showing the configuration for connecting the tile to data. The panel has a close button (X) in the top right corner. It contains the following settings:

- Connect your tile to data** (with a help icon)
- Workspace:** Food Service (dropdown menu)
- Dashboard:** Food Service Dashboard (dropdown menu)
- Tile:** PBI Food Service (dropdown menu)

Below the settings, there is a note: "Share the tile dashboard from Power BI so people using this app will see the tile." and a link to "Learn more". A yellow circle with the number "1" is placed to the left of the "Data" panel.
